

Free Influenza Vaccination Public Health Clinics

It is recommended that all persons 6 months of age and older receive the flu vaccine.

Those at higher risk for flu complications include children younger than 5 years, adults 65 years and older, and pregnant women. Those that are immune compromised or with chronic medical conditions such as asthma, chronic lung or heart disease, diabetes and obesity can also have increased risk of flu complications.

Free influenza vaccinations are available at the following health centers, starting the week of October 26th.

Vacunación gratuita contra la Influenza

Clínicas de Salud Pública

Se recomienda que todas las personas 6 meses de edad y mayores reciban la vacuna contra la gripe.

Personas de alto riesgo a complicaciones por la gripe son niños(as) menores de 5 años, adultos de 65 años y mayores, y mujeres embarazadas. Personas que tienen un sistema inmunológico débil o condiciones crónicas como asma, enfermedades crónicas de los pulmones o corazón, diabetes u obesidad pueden también tener mayor riesgo de desarrollar complicaciones por la gripe.

Vacunas contra la gripe sin costo están disponibles en los siguientes centros de salud, empenzando la semana de Octubre 26.
